

RENEWABLE ENERGY SERVICES

L&T-Sargent & Lundy

L&T-Sargent & Lundy Limited (L&T-S&L) is a joint venture between Larsen & Toubro Limited, India and Sargent & Lundy LLC, USA providing engineering and consulting services for electric power business across the globe. Operating since 1995, L&T-S&L combines deep domain expertise, internationally aligned systems and processes, and unique 3D modeling technique to converge technical consultancy with high-end solutions and delivery.

Joint Venture Partners

The synergy created by coming together of an engineering and construction conglomerate and a consulting giant has enabled L&T-S&L to consistently deliver solutions, which are technically sound and operationally efficient.

Larsen & Toubro (L&T) is over USD 16 billion technology, engineering, construction, manufacturing and financial services conglomerate, with global operations. It is ranked 4th in the global list of Green Companies in the industrial sector by reputed international magazine *Newsweek*, and ranked the world's 9th Most Innovative Company by *Forbes International*. L&T is one of the largest and most respected companies in India's private sector and has attained and sustained leadership in its major lines of business over seven decades.

Sargent & Lundy^{LLC} (S&L) – With nearly 125 years of experience in providing engineering services exclusively focused on power, S&L is acknowledged as a premier force worldwide. S&L has an extensive and credible consulting experience in projects as diverse as combined cycle power plants, gas based, coal-based projects, renewable energy and nuclear projects.

Professional Expertise

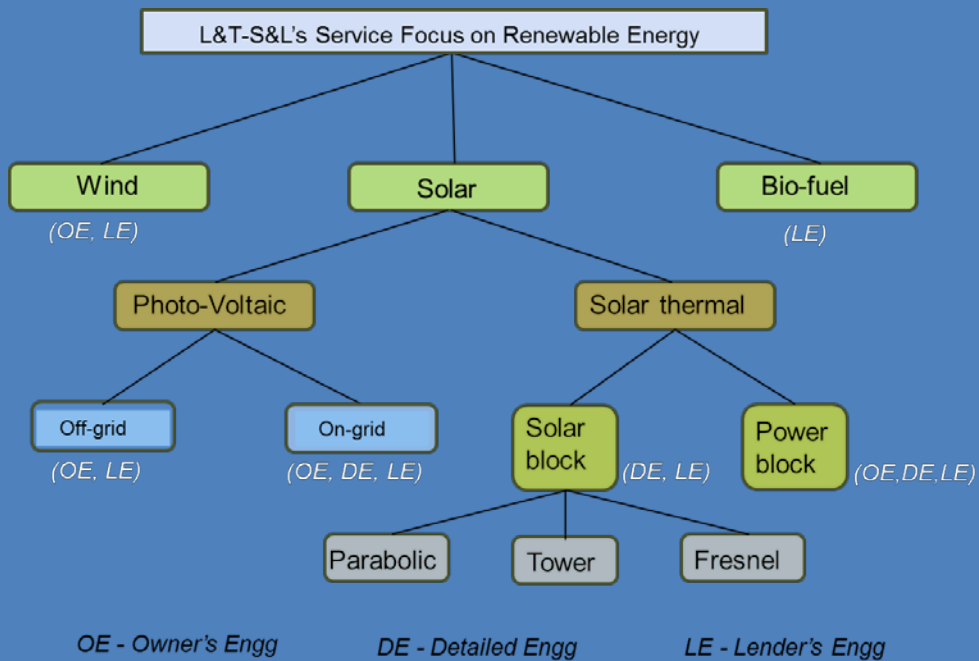

Processes, systems and technology yield better results when talent combined with experience drive them. The multi-skilled team at L&T-S&L consisting over 550 engineers and designers bring together specialists in the field of conventional and non-conventional energy, engineering disciplines, project management and client servicing. Integral to this team are experts in the field of information technology, quality assurance and

Select References

While planet Earth suffers from alarming environmental challenges and slow depletion of fossil fuels, identifying and promoting renewable energy sources that can help mitigate these challenges and propel sustainable growth is imperative.

L&T-S&L is sensitive to these emerging demands. L&T-S&L helps power project developers and EPC contractors deploy environment-friendly power generating technologies by assisting them in setting up renewable energy projects in Wind, Solar and Biomass Sector.
