L&T-Sargent & Lundy designed 2x660 MW Shree Singaji Thermal Power Plant Unit 4 of MPPGCL successfully achieves COD

L&T-Sargent & Lundy (L&T-S&L), designed Unit 4 (second unit) of state-of-the-art 2x660 MW Shree Singaji Thermal Power Plant in Madhya Pradesh, India successfully achieved COD on March 27, 2019. This milestone was achieved in record time of 50 months and 28 days from the effective date of contract. This has set a new benchmark in the power sector for an indigenous plant.

The EPC contract of this supercritical power plant at Khandwa was awarded to Larsen & Toubro Limited (L&T) on December 31, 2014 by M P Power Generating Company Limited (MPPGCL). L&T's scope of work included design, engineering, supply, installation and commissioning of Units 3 & 4 (Stage-II) of the coal-fired power plant on a turnkey basis.

L&T-S&L carried out complete Basic and Detail Engineering of the plant and also extended full engineering support for plant integration activities including procurement engineering, field engineering and commissioning support.

L&T-S&L is also engineering partner to L&T for other supercritical and ultra-supercritical coal-based power projects in India like 2x660 MW Khargone ultra-supercritical power plant for NTPC in Madhya Pradesh and 2x660 MW Chhabra Supercritical Thermal Power Project for RRVUNL in Rajasthan to name a few.

About L&T-Sargent & Lundy

L&T-Sargent & Lundy is a 50:50 Joint Venture between Larsen & Toubro, India and Sargent & Lundy LLC USA. L&T-S&L provides a complete range of Engineering and Design for power plants from concept to commissioning of Open/Simple cycle plants, Combined cycle plants, Cogeneration plants, Coal based plants - both Subcritical and Supercritical technology and associated auxiliaries. L&T-S&L also has established credentials in Renewable (Solar/Wind/Biomass) Energy and Substation Engineering space.

Our Vision

“To become a leading Integrated Engineering Solutions provider in the global power sector, continuously creating value for our stakeholders”
